DETAILED ACTION

Applicants amendment canceling claims 1-28 and 33-35, and amending claims 29-31 and adding new claims 36-46, Paper No. 5, 10/31/2001, is acknowledged. Claims 29-32, and 36-46 are present for examination.

Election/Restriction

All of the claims, 29-36, are drawn to a method of producing L- β -lysine, classified in class 435, subclass 233.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- (A). SEQ ID NO: 1 or a sequence encoding SEQ ID NO: 2.
- (B). SEQ ID NO: 3 or a sequence encoding SEQ ID NO: 4.
- (C). SEQ ID NO: 5 or a sequence encoding SEQ ID NO: 6.
- (D). SEQ ID NO: 7 or a sequence encoding SEQ ID NO: 8.
- (E). SEQ ID NO: 9 or a sequence encoding SEQ ID NO: 10.
- (F). SEQ ID NO: 11 or a sequence encoding SEQ ID NO: 12.
- (G). SEQ ID NO: 13 or a sequence encoding SEQ ID NO: 14.
- (H). SEQ ID NO: 15 or a sequence encoding SEQ ID NO: 16.

The inventions are distinct, each from the other because of the following reasons:

Inventions (A)-(H) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In

Art Unit: 1652

the instant case the different inventions, those vectors used in the claimed methods, represent structurally different polynucleotides and the polypeptides encoded by them. Therefore, where structural identity is required, such as for hybridization or expression, the different sequences have different effects.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition
